Funding Source(s): Title 1

Justification for Position (including description of duties and responsibilities):

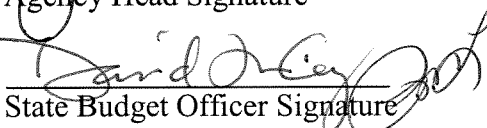

The primary purpose of this position is to supervise and align the development, enhancement, assessment, and maintenance of Science standards and curriculum at the secondary level. The duties of this position also include developing teacher training and instructional modules for implementing the standard course of study and assisting low-performing schools in achieving their performance goals in Physical Science, Biology, Chemistry, Physics, and the new high school exit standards. The consultant will strengthen secondary Science by making research-based recommendation for policy, program, and fiscal operations. In addition, the consultant will provide visionary leadership in Science for the state and for new high school initiatives.
